

C A M B R I D G E SUSTAINABLE FOOD CHARTER

Cambridge Sustainable Food is an independent network of public, private and community organisations and individuals. This sustainable food charter sets out a vision to guide us in developing an action plan for improving food culture in the City. We encourage you to become a member of our network as a sign of your support, so that by working together we can make a difference for

1 People

- ensuring all people have access to affordable, nutritious, sustainably produced and tasty food, prepared to high hygiene standards, regardless of income
- helping people gain and pass on the knowledge and skills to grow, prepare, cook and enjoy food
- supporting the rights of workers throughout the food chain to fair pay and safe working conditions

2 Community

- encouraging a diverse range of independent enterprises that provide sustainable, local food and employment
- bringing communities together to celebrate the culinary traditions of our diverse population
- providing support for community food growing projects and other food related activities

3 The Planet

- reducing greenhouse gas emissions from field to fork
- supporting food production that protects natural resources and ecosystems
- reducing food waste and packaging
- increasing composting and recycling

You can join Cambridge Sustainable Food as an organisation or individual either by emailing or via our website, where you will also find practical suggestions for what you can do to help.
